General Comments

It was a pleasure to be involved in this exceptionally well thought out online event, when we can't come together as a fancy it was a pleasure that we look to utilise the online social media space in a way that isn't derogatory to others or separating our fancy as it frequently does. Loved the exhibits, and I had some really Bonny examples in there. Dwarf Lops shining through with the French. The Plush Lop best unstandardised as well, just WOW. Thanks to Laura for the invite.
